

Universal Drivers Upgrade Install Guide v 1.5

Please go to www.houdinisoft.com/downloads

1. Click on "Universal Drivers Upgrade"
2. Open Folder and Extract to Desktop.
3. Open Folder "Usb Drivers" and COPY all (6) files within folder.
4. Then paste files into "(C:) Local Disk > Program Files > Susteen > Usb Drivers" Note: you can find (C:) in "My Computer"
5. You will Copy and Replace all files and your Done. Drivers are installed into correct directory.
6. Now when the Hardware Wizard appears, it should find the drivers automatically (recommended).
7. If Windows does not find the driver automatically, then you will have to manually browse to the path: "(C:) Local Disk > Program Files > Susteen > Usb Drivers". To locate the drivers.
